3. Barriers to Future Attainment (for pupils eligible for PP including high ability)	
In-School Barriers (<i>issues to be addressed in school, such as poor oral language skills</i>)	
A.	School Context of Deprivation: Our school context of deprivation means that there are a large number of families facing social and economic challenge. Our school deprivation indicator (IDACI) is 0.33 (decile 2) compared to National of 0.24. We have an IMD of 2 (score: 35.4). 34% of our pupils (149 pupils) live in decile 2 and 19% (82 pupils) live in decile 1. Many of our pupils have limited life experiences to draw experiences from for writing. (Ofsted 2013)
B.	Social Care Needs: Our school has a large number of families supported historically or currently by outside agencies including social care and family support workers. Many of our families need support from school to help them to address their needs and to support their children's learning. Many of our children do not receive frequent parental support with reading, homework and school activities.
C.	Attainment on Entry: Around two thirds of our children enter FS1 with knowledge and skills that are below those expected for their age. A small proportion of pupils are significantly below what is typical for their age. Each cohort has differing aspects of low on-entry data within the prime areas. Our current FS1 is below in Language and Communication, Managing Feelings and Behaviour, Moving and Handling and Mathematics. We also have a large number of SALT referrals.
D.	SEND: Jan 2016 school census data shows 12 % of pupils have Special Educational Needs. 17 % of FSM6 pupils have SEND.
External Barriers (<i>issues which also require action outside school, such as low attendance rates</i>)	
E.	Attendance: Overall attendance half terms 1-4 in 2015-2016 showed FSM6 pupils at 4.6%. Whilst as a group they performed better than national they were the lowest performing group in the school. 9.2% of FSM6 pupil were Persistent Absence (PA) pupils across half terms 1-4 in 2015-2016. This was better than the national but is still too high. Poor attendance rates for PP pupils reduces their school hours and causes them to fall behind on attainment.

4. Outcomes		
	<i>Desired outcomes and how they will be measured</i>	<i>Success criteria</i>
A.	Improve attainment and progress in reading, writing, maths and GPS in our current Y2 & Y6 class for pupils eligible for PP, including more able disadvantage pupils. (Our current Y2 class has a 50% and Y6 45% FSM6 entitlement).	Pupils eligible for PP in Y2 & Y6 make rapid progress so that most pupils eligible for PP meet age related expectations by the end of Key Stage 1 or 2 and all have made at least good progress from their starting points.
B.	Continue to improve attainment and progress in reading, writing and maths across the school for pupils eligible for PP, including more able disadvantaged pupils.	Pupils eligible for PP across the school make rapid progress so that most pupils eligible for PP meet age related expectations at key benchmarks and all have made at least good progress from their starting points.
C.	Continue to ensure that teaching, learning and assessment across the school is at least good with a large proportion outstanding and that this is impacting on PP achievement in all classes.	Teaching, learning and assessment across the school will continue to be outstanding overtime ensuring that most pupils eligible for PP across the school will meet age related expectations at key benchmarks and all have made at least good progress from their starting points.
D.	Increase attendance rates for pupils eligible for PP across the school ensuring that the number of pupils eligible for PP who are Persistent Absence (PA) decreases.	Overall attendance rates for pupils eligible for PP will improve to in line with national and comparable with other pupil groups. There will be a decrease in the number of persistent absentees among pupils eligible for PP to in line with national and comparable with other pupil groups.
