

# DENBIGH

Newsletter  
June 2018

Lots of engineering going on in Year 3 Turtles! We first designed and built a raft to hold weights - the best design held 190g! Then we made a bridge using wooden sticks and sellotape. The print sticks almost made it across to the other table...

On Friday, Year 5 took part in the Reading Festival at the Langdale Centre. We listened to Simon Bartram talk to us about the writing process and how he gets inspiration for his books before taking part in some fantastic workshops. We had lots of fun.

Year 6 had a great day at Marsden Bay today putting all of our learning this week into practice. We were looking for signs of coastal erosion and how the beaches in this area are formed. We had a great time!

Year 1 Pandas had a fantastic day at Kirkley Hall Zoo today. We got to see and learn about lots of different animals from around the world. It was amazing!

Year 4 having an energetic time at the Skipping Festival. The children's skipping was fantastic and they performed their skills and skip dance amazingly. We also came back with lots of certificates!! They should all be very proud. Well done!!

Y2 Dinos had a marvellous time exploring texture. We did rubbings of different surfaces to see what texture they created then used this to create a landscape. By the end of the week we were mixing paint with sand, sugar, icing sugar and oil to create even more different textures for our landscape. The art work the children created was amazing.
