

Nurturing Families Solihull Approach

Our 2 Behaviour Managers, Mrs Jackie Young and Mrs Kirsty Bird have both been trained in the 'Solihull Approach'.

The Solihull Approach promotes the emotional health and well-being in children and families. The model supports practitioners to work with children and families and supports parents and foster carers to understand their child.

If you would like any support or advice please contact Jackie or Kirsty.

Reflection Time

- Extreme behavior results in 'Reflection time'. Child would miss play/lunchtime that day, and spend time in the Nurture Room 'reflecting' on the decisions/choices they should have made.
- Parents are notified and brought into school where necessary.
- Plan of action is made
- During Reflection, children spend time with Mrs Young and/or Mrs Bird discussing their behaviour :- triggers, what went wrong, alternative response or how to stop this from happening again. Measures are put in place.
