

PE and Sports Funding - Impact report 2019/2020

The Government have allocated funding to primary schools to develop three key areas of PE.

This funding has been ring-fenced and can therefore only be spent on PE and Sports in school.

Denbigh uses our premium to:

- Develop or add to the PE, physical activity and sport that our school provides.
- Build capacity and capability within our school to ensure that improvements made now will benefit the pupils joining the school in future years.

We have used the premium to secure improvements in the following 5 key indicators.

These five key areas are:

- Engagement of all pupils in regular physical activity
- Profile of PE and sport is raised across the school as a tool for whole-school improvement
- Increased confidence, knowledge and skills of all staff in teaching PE and sport
- Broader experience of a range of sports and activities offered to all pupils.
- Increased participation in competitive sport

As a school we completed the following actions:

Aim: Increase confidence, knowledge and skills of all staff in teaching PE and sport

We provided existing staff with increased confidence, knowledge and skills of all staff in teaching PE and sport.

Teachers met with staff from Jigsaw to develop an understanding of how they can use ICT to enhance teaching and learning. All teachers received specific training on a variety of apps relating to the subject. They now utilise technology to provide high quality feedback and improve performance standards.

We provided staff with CPD training focussing on children leading in PE. Staff were shown how to best utilise apps in order to support the children leading.

Staff were also trained on how to use Book Creator to submit evidence. Book Creator has been used to show progression through each unit. Staff in KS2 are now sharing Book Creator templates with children for them to evidence their own progression.

We provide existing staff with training and resources to help them teach high quality PE and sport.

Staff (Teachers and Teaching Assistants) received training alongside NUFC multisport/team challenge sessions. Staff were audited before and after the sessions to gauge how the training had impacted on their practice.

Confidence levels within staff were raised as a result of the training.

Aim: Increase engagement of all pupils in regular physical activity

We promoted regular physical activity and healthy lifestyles through: Hoopathon Day, healthy eating promotion, Match Fit, Family Football, Hoops for Health, Yoga Bugs OPAL Play and active and outdoor learning) *.

**Some of our aims could not be completed due to Covid-19. These aims will be rolled over to 2020-21.*

Aim: Develop a broader experience of a range of sports and activities offered to all pupils.

We provided a range broader range of experiences and sports including: Skiing, yoga, dance, dodgeball, hockey, rugby, boot camps, ballet, ice skating, surfing and archery.

Aim: To increase participation in competitive sport

We increased participation in sports competitions by developing our intra-school sports competitions and by developing the number of inter-school competitions that we have participate in. This resulted in the school obtaining the Gold your schools games mark for the third year running.*

**The School Games award this year will not count towards Platinum level.*

Aim: Raise the profile of PE and sport is raised across the school as a tool for whole-school improvement

We have developed a Sports Leaders program. These leaders deliver sporting activities during break times to encourage physical activity.

We have increased our active learning. Our curriculum has developed Active Maths and outdoor learning lessons. These lesson promote cross curricular learning and ensure children are active while they are learning For example the use of Orienteering while children are learning directions in Maths.
