

## EVIDENCING THE IMPACT OF THE PRIMARY PE AND SPORT PREMIUM

It is a statutory requirement for primary schools to publish, on their school websites, how much PE and sport premium funding they receive, a full breakdown of how they have or will spend the funding, the effect of the premium on pupils' PE and sports participation and attainment, and how the school will make sure these improvements are sustainable. One of the key purposes of putting information on the school website is to keep parents informed, so this information should be written in a format that is clear and easily accessible.

It is expected that schools will see an improvement against the following five key indicators:

1. The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
2. The profile of PE and sport being raised across the school as a tool for whole-school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broadened experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport

## How to use the primary PE and sport premium

Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport they offer. This means that you should use the premium to:

- Develop or add to the PE and sport activities that your school already offers.
- Make improvements to the current teaching of PE that will benefit pupils joining the school in future years.

Denbigh will regularly publish details of how we have spent our PE and Sport Funding as well as measuring the impact it has had on pupil's PE and sport participation and the attainment by the of the academic year.
